AUTHOR	Giere, Ursula, Ed.
TITLE	UNESCO/UIE Literacy Exchange Network on Industrialized Countries. Directory of Members. (Repertoire des membres. Directorio de los miembros. Mitgliederverzeichnis.)
INSTITUTION	United Nations Educational, Scientific, and Cultural Organization, Hamburg (Germany). Inst. for Education.
REPORT NO	ISBN-92-820-0068-X
PUB DATE	94
NOTE	368p.
PUB TYPE	Reference Materials - Directories/Catalogs (132) -- Multilingual/Bilingual Materials (171) -- Tests/Evaluation Instruments (160)
LANGUAGE	English; French; Spanish; German
EDRS PRICE	MF01/PC15 Plus Postage.
DESCRIPTORS	Adult Basic Education; *Adult Educators; Basic Skills; Community Development; Correctional Education; Cultural Pluralism; *Developed Nations; Educational Research; Educational Technology; Education Work Relationship; Foreign Countries; International Cooperation; *International Educational Exchange; International Organizations; International Programs; *Literacy Education; Material Development; Migrants; Minority Groups; Multicultural Education; Networks; Numeracy; Program Administration; *Researchers; Teaching Methods; Volunteers; Volunteer Training; Writing Skills

ABSTRACT

This directory lists 807 individuals and institutions throughout the world who are working on literacy in industrialized countries. The foreword is followed by an introductory section that describes the UNESCO/UNESCO Institute for Education (UIE) Literacy Network and its work. This introduction contains the following: a graph showing various member groups of UIE's network and listing some of the network's functions; a map showing the geographical scope; a graph showing network membership by country; and the questionnaire used to develop the directory. The foreword and introduction are presented in English, French, Spanish, and German. The main entry section groups individuals and institutions by country. Each entry may include some or all of the following: name and/or institution, job and/or private address, telephone number, type of organization, working language(s), nature of work, specialization, and geographical focus. Four indexes are provided: (1) members listed alphabetically by last name or institutional name; (2) field of specialization; (3) geographical focus: countries, major areas, and groups of countries; and (4) network members working in international organizations listed alphabetically by last name. The questionnaire is appended. (YLB)

Foreword

This directory of members of the UNESCO/UIE Literacy Exchange Network will be a useful tool to facilitate communication and cooperation between practitioners and researchers concerned with the industrialized countries. A complementary publication for developing countries will follow in 1995. The purpose is to put people in contact with the experiences and know-how of others and to help each of us build on the accumulated expertise of the other specialists and literacy workers. We hope it will also foster international cooperation between countries and regions. Indeed this guidebook is a good example of the role UNESCO has been called upon to play as catalyst between literacy initiatives. Without such a cooperation, our fundamental objective will not be possible, that is to ensure for all citizens an opportunity to develop further their communicative competencies in a manner relevant to their milieu and their culture.

We need to thank the Adult Literacy section of UNESCO for their close cooperation in the development and the printing of this publication.

Paul Bélanger
Director UIE

Préface

Ce répertoire des membres du Réseau UNESCO/IUE en alphabétisation deviendra très certainement un outil fort utile pour faciliter les échanges et la coopération entre chercheur(euse)s et praticien(ne)s qui se préoccupent de l'alphabétisation dans les pays industrialisés. Une publication similaire pour les pays en voie de développement suivra en 1995. L'objectif poursuivi ici est de favoriser une communication réciproque entre les intervenants des différents pays et ainsi permettre une progression plus cumulative des expertises et des prises de contact entre les diverses perspectives et approches. Cette publication constitue en effet un bon exemple du rôle que l'UNESCO est appelé à jouer à titre de force catalysatrice entre les initiatives entreprises dans les différentes sociétés pour donner à tous la chance de développer davantage leurs capacités de communiquer d'une manière certes efficace mais aussi respectueuse de leur différents milieux et des cultures.

Nous tenons à remercier la section responsable de l'alphabétisation des adultes au siège social de l'UNESCO pour l'étroite collaboration que nous avons reçue lors de la préparation de cette publication dont ils ont d'ailleurs assuré l'impression.

Paul Bélanger,
Directeur, IUE

Preámbulo

Este directorio de los miembros de la Red de Intercambio para la Alfabetización de la UNESCO/IUE será una herramienta que facilitará la comunicación y cooperación entre los practicantes e investigadores cuyo trabajo se relacione con los países industrializados. En 1995 se publicará un complemento, correspondiente a los países en desarrollo. Su propósito es acercar la experiencia y el conocimiento de especialistas y otros expertos a las personas que trabajan o investigan en el área de la alfabetización. De este modo, nuestro trabajo se enriquecerá con la experiencia acumulada de todos nosotros. Además, tenemos la esperanza de poder contribuir a fomentar las relaciones entre países y regiones. Esta guía es realmente un buen ejemplo de la función encomendada a la UNESCO, a saber, la de servir de catalizador entre iniciativas de alfabetización. Sin dicha cooperación no será posible alcanzar nuestro objetivo primordial, que es, el asegurar a cada uno de los ciudadanos la oportunidad de desarrollar sus competencias comunicativas de acuerdo a su entorno y cultura.

Agradecemos a la sección de Alfabetización de Adultos de la UNESCO su estrecha colaboración en el desarrollo e impresión de este trabajo.

Paul Bélanger
Director del IUE

Vorwort

Dieses Mitgliederverzeichnis des UNESCO/UIP Alphabetisierungsnetzwerks wird sicher den Kommunikationsfluß und die Kooperation zwischen PraktikerInnen und ForscherInnen fördern, die zur Alphabetisierung in Industrieländern arbeiten. Ein entsprechendes Verzeichnis zu den Entwicklungsländern ist für 1995 geplant. Wir möchten auf diese Weise helfen, einen Dialog zwischen AlphabetisierungsarbeiterInnen aus den unterschiedlichsten Ländern herzustellen, um aus den Erfahrungen und dem Know-How Einzelner kollektives Wissen zu bilden, auf dem wir gemeinsam aufbauen können. Gleichzeitig hoffen wir, auf diese Weise die internationale Zusammenarbeit zwischen Ländern und Regionen fördern zu können. Diese Veröffentlichung ist ein gutes Beispiel für die der UNESCO übertragene Rolle als "Katalysator" zwischen Alphabetisierungsinitiativen. Ohne eine solche Zusammenarbeit wird unser Hauptziel sich nicht verwirklichen lassen, nämlich allen BürgerInnen die Möglichkeit zu geben, ihre kommunikative Kompetenz ihrem Milieu und ihrer Kultur entsprechend weiterzuentwickeln.

Wir danken der Abteilung für Erwachsenenalphabetisierung der UNESCO für die enge Zusammenarbeit bei Entwicklung und Druck dieser Publikation.

Paul Bélanger
Direktor, UIP

The UNESCO/UIE Literacy Network: A Network of Networks

Literacy networks for sharing information, experiences and expertise are mushrooming. While some people believe in informal networks growing around personal contacts with colleagues, others prefer more institutionalized networks. Discussions about what features make networks most interactive, most efficient and most able to help in bridging the gap between theory and practice, research and decision-making have led to controversial viewpoints, competition and sometimes even rivalry.

There seems to be some common understanding that networks crystallize and emerge easily around a shared concern for a particular specialization aspect, be it the profession practised, a particular content area, an ideological approach, a geographical region or perhaps around a common language.

What, however, prevents active, dynamic networks from being submerged under files, ending up as address lists of passive recipients of some insignificant information being disseminated with increasing irregularity? A straightforward overall valid answer certainly does not exist.

A working group on networks established during the International Conference on World Literacy in the Year 2000 organized in October 1990 by the Literacy Research Center, University of Pennsylvania as a follow-up of the World Conference on Education for All (WCEFA), Jomtien, for example, considered the following criteria crucial for stabilizing a network's capacity for dialogue: high levels of commitment to offering high-quality knowledge; two-way translation from research knowledge to practitioners and from practice to researchers; a maximum size of 200 network members; some face-to-face communication; infrastructure and funds for long distance communication.

The World Declaration on Education for All and Framework for Action to Meet Basic Learning Needs adopted by the World Conference on Education for All in Jomtien in March 1990, while stressing the need for exchange of information, experience and expertise and for undertaking joint activities, does not highlight specific networking principles but recommends the utilization of existing mechanisms for information sharing such as the

> *"... numerous conferences and meetings organized by non-governmental bodies ..."*[1]

The following six areas in which a form of regional collaboration seems particularly appropriate are explicitly mentioned:

> *"... (i) training of key personnel, such as planners managers, teacher educators, researchers, etc; (ii) efforts to improve information collection and analysis; (iii) research; (iv) production of educational materials; (v) use of communication media to meet basic learning needs; and (vi) management and use of distance education services."*[2]

The Framework for Action suggests in this context

> *"... several existing mechanisms that could be utilized to foster such activities, including ... the UNESCO Institute for Education".*[3]

The Literacy Exchange Network established at the UNESCO Institute for Education (UIE) with the support of UNESCO Headquarters in 1988 for industrialized countries and from 1991 also for developing countries does not pretend or aim to be the one and only Network/Resource Centre in Adult Literacy and Basic Education. Rather, by exploiting the experience and contacts gained by UIE over several decades of international activity, it attempts to actively channel the international information flow among individuals and organizations - governmental, non-governmental and intergovernmental. The Network membership ranges from the grassroots to research and policy-making and is concerned with any aspect of adult literacy.

While the Literacy Network for developing countries is still being systematized, the Literacy Network for industrialized countries, following a recommendation of the 1986 UNESCO Pan-European Literacy Workshop, has begun its operations with the following objectives:

- to develop links between policy-makers, researchers, practitioners, networks

---

[1] World Declaration on Education for All and Framework for Action to Meet Basic Learning Needs. Adopted by the World Conference on Education for All. Jomtien, Thailand 5-9 March 1990. New York: WCEFA April 1990. p. 14.

[2] ibid.

[3] ibid.

- to stimulate co-operation, research and action through trend analyses
- to disseminate information through publication of, for example, bibliographies, studies, directories, or through supply of information to newsletters
- to help avoid duplication of work
- to provide information on request.

The graph on page 11 shows various member groups of UIE's network, such as mass media, voluntary organizations, learning groups, literacy workers, authors, other literacy networks - and lists some of the network's functions, the co-operative research strand and the information exchange activities.

One of the instruments for information exchange not explicitly mentioned in the graph is the newsletter

Adult Education Information Notes

published by UIE in association with UNESCO Headquarters and distributed free of charge to all network members. Furthermore, network members also receive publications especially prepared for the Network, such as trend analyses or bibliographies.

The Network's knowledge pool has the following components:

- a special collection of books, documents, articles, conference reports, newsletters, grey literature on literacy from all over the world;
- a unique collection of more than 7500 sample learning materials used in literacy work with adults and out-of-school children from 120 countries in 164 languages.
  The materials include posters, rural newspapers, games, video cassettes, films, supplementary reading materials, evaluation instruments and teachers' manuals;
- an electronic database containing network members'profiles;
- the network members' expertise.

One instrument for data collection is the questionnaire on page 12 asking for personal data (more individual than institutional), nature of work, field of specialization, current projects, publications, etc.

This original questionnaire keeps changing with the dynamic flux of the literacy field. Some additions had to be implemented after analysing the first round of responses to the item "others" (question 5.05 and 6.17 in the original questionnaire). The changes introduced are shown in italics on p. 13.

More than 1500 institutions/individuals/networks have been approached so far to join the Network, and for decentralization purposes between 3-10 per country to join as resource members, depending on the amount of a country's activities and the nature of their expertise.

To date the Network has 1348 members from 141 countries actively participating in the information exchange. Of these, 807 members work on literacy in industrialized countries.

Most of the members included in this Directory of the UNESCO/UIE Literacy Exchange Network on Industrialized Countries live in industrialized countries, but there are also some few who live in developing countries and work on literacy in industrialized countries. Industrialized countries as defined for this Directory are: Europe (including Cyprus and Turkey), Australia, Canada, Israel, Japan, Republic of Korea, New Zealand, Singapore, South Africa, and the USA (chart p.14).

The geographical distribution of the 807 members of the UNESCO/UIE Literacy Exchange Network on Industrialized Countries from 50 countries is very unequal. Almost 55% of the members are from four countries, the USA, Canada, FRG, the UK, 37% are from two countries, namely the USA and Canada. This certainly reflects to some extent the different levels of acceptance or awareness of the issue of literacy, which has increased only recently in Eastern European countries and Scandinavia (chart p. 15).

While the collection of data goes on continuously, the number of members grows, some members quit literacy work and others join, the content as well as the geographical scope broadens, and the following publications have been produced and/or distributed to network members for stimulation of discussion among them:

> *Functional illiteracy in industrialized countries: An analytical bibliography.* 1987. Hamburg: UIE.

A selective bibliography on literacy in industrialized countries. 1990. *UIE Reports*. No. 3.

Researching literacy in industrialized countries: trends and prospects. 1990. *UIE Reports*. No. 2.

Literacy in developing countries: An analytical bibliography. 1990. (Bulletin 254-257 of the International Bureau of Education, Geneva).

Alpha 90. 1990. Hamburg: UIE/Québec: Ministry of Education.

Alpha 92. 1992. Hamburg: UIE/Québec: Ministry of Education. Spanish version: Madrid: Ministerio de Educación y Ciencia.

Adult education information notes. UNESCO, Paris, quarterly.

Worlds of words. Literacy posters. Catalogue of an international exhibition. Co-published by UIE and Ernst Klett Verlag für Wissen und Bildung. 1992.

The daily work in the Network's central office at the UNESCO Institute for Eduation is often rather hectic. Every day written and telephone requests for information come in, many of them requiring intensive and time-consuming responses. Information requested ranges from statistical data via bibliographical references, contact persons, recommendations of lecturers for conferences, practical hints for literacy classes to specialized research issues. New publications, announcements of conferences and projects, and any other news from the literacy scene have to be identified, scanned and processed on a regular basis. The electronic data base, containing information related to the individual network members has to be regularly thoroughly updated due to the high mobility and fluctuation among the international community of literacy workers. Furthermore, publications for distribution to the network members have to be prepared.

For the near future the following activities are planned or have been launched:

- The unequal representation of network members within and among countries is to be balanced.

- The identification of network members from developing countries is to be systematized and intensified (Questionnaire for network members from developing countries see p. 16. This instrument takes experiences made with the questionnairefor industrialized countries into account, reflects, however, also some differences in literacy work and research between industrialized and developing countries).

- The identification of network members from Eastern Europe is also to be systematized and intensified.

- New "sub-networks" will be created, and existing ones will be intensified, such as those on

  * Literacy in Africa
  * Women and Literacy
  * Numeracy.

The publication of this Directory and its distribution to the network members may help decentralize some network activities.

All network members are now able to establish contacts with each other without going through the central office at the UNESCO Institute for Education. On the basis of the information supplied by the network members, the Directory helps to find out who works where, who has specialized in what field, who focuses on what country or region. Furthermore, the Directory may indicate gaps and also reveal peaks in literacy practice and research. The indices on fields of specialization and on geographical focus invite quantitative and qualitative interpretation.

Many colleagues helped to prepare this Directory. Thanks to all of them: to Beate Amrhein and Andreas Meyer for data processing, to Luís Prieto for adjusting the CDS/ISIS software to the Network's needs, to Imke Behr for proof reading, to Liane Mayer for helping with the layout, to Dominique Bohère for translations into French and to Alejandra Cádiz for translations into Spanish.

Without the information supplied by the network members the publication of this Directory would not have been possible.

Since a network is as strong, innovative and active as its membership, our Network's future relies on your participation in the regular supply of information, be it changes of address, publications, learning materials, or any other interesting news from the literacy scene you would like to share with others.

Le réseau d'alphabétisation de l'UNESCO/IUE : un "réseau des réseaux"

Les réseaux d'alphabétisation pour l'échange d'informations, d'expériences et de compétences connaissent actuellement une grande expansion. Certaines personnes préfèrent le réseau informel qui facilite les contacts personnels entre collègues, d'autres penchent pour une forme plus institutionnalisée. La discussion sur les caractéristiques qui rendent un réseau particulièrement interactif, efficace et apte à combler le vide entre théorie et pratique et entre recherche et prise de décision, a conduit à la controverse, à la concurrence et parfois même à la rivalité.

Un grand nombre cependant semble être de l'avis qu'un réseau peut s'établir plus facilement et se cristalliser autour d'une préoccupation partagée sous un aspect particulier, qu'il s'agisse d'une activité, d'un domaine d'action, d'une approche idéologique, d'une région géographique ou peut-être d'une langue commune.

La question est donc de savoir ce qui peut protéger un réseau dynamique et actif d'être submergé par la paperasse et de finir en liste de destinataires passifs recevant de plus en plus irrégulièrement quelque information sans importance. Il n'existe certainement pas de réponse toute faite.

Un groupe de travail sur les réseaux, décidé lors du Congrès international sur l'alphabétisation mondiale en l'an 2000, et instauré en octobre 1990 au centre de recherche sur l'alphabétisation de l'Université de Pennsylvanie à la suite du Congrès Mondial sur l'Education pour Tous (CMEPT) à Jomtien, considère par exemple les critères suivants comme indispensables pour maintenir la faculté de dialogue d'un réseau : un haut niveau d'engagement à transmettre des informations de qualité ; une transparence dans les deux sens entre praticiens et chercheurs ; un nombre maximal de 200 membres ; un certain degré de contacts directs ; une infrastructure et des fonds pour la communication à longue distance.

La "Déclaration mondiale sur l'éducation pour tous et le cadre d'action pour satisfaire aux besoins d'apprentissage de base", adoptée lors du Congrès Mondial sur l'Education pour Tous en mars 1990, en insistant sur la nécessité d'échanger informations, expériences et compétences et d'entreprendre des activités conjointes, ne met pas au premier plan des principes spécifiques à l'instauration d'un réseau, mais recommande l'utilisation des mécanismes existant dans l'échange d'informations tels que

> *"... de nombreuses conférences et réunions organisées par des institutions non-gouvernementales..."*[4]

Elle mentionne expressément les six domaines suivants, dans lesquels une forme de coopération régionale semble particulièrement indiquée :

> *"... (i) la formation du personnel de base tel que gestionnaires planificateurs, formateurs d'enseignants, chercheurs, etc ; (ii) les efforts pour améliorer la collecte et l'analyse des informations ; (iii) la recherche ; (iv) la production de matériel pédagogique ; (v) l'utilisation des moyens de communication pour satisfaire aux besoins en apprentissage de base ; et (vi) la gestion et l'utilisation des services d'enseignement à distance."*[5]

Le cadre d'action suggère dans ce contexte

> *"... plusieurs organismes établis pouvant être utilisés pour encourager de telles activités, à savoir ... l'Institut de l'UNESCO pour l'Education."*[6]

Le réseau d'échange sur l'alphabétisation, qui a été établi à l'Institut de l'UNESCO pour l'Education (IUE) avec l'appui du siège de l'UNESCO, à partir de 1988 pour les pays industrialisés et de 1991 pour les pays en développement, ne prétend ni ne vise à être le seul et unique réseau et centre de données sur l'alphabétisation des adultes et l'éducation de base. Bénéficiant de l'expérience et des contacts qu'il a acquis pendant plusieurs décennies d'activité internationale, l'IUE se propose davantage de canaliser avec efficacité le flux d'informations au niveau international au profit d'intervenants et d'organisations - gouvernementales, non-gouvernementales et intergouvernementales. Ces membres sont impliqués dans l'alphabétisation des adultes sous tous ses aspects, des premières tentatives à l'établissement de structures en passant par la recherche.

Le réseau pour les pays en développement est en cours d'élaboration et celui pour les pays industrialisés, suivant une recommandation de l'atelier d'alphabétisation paneuropéen de l'UNESCO de 1986, a commencé à opérer avec les objectifs suivants :

- renforcer les liens entre responsables de décisions, chercheurs, praticiens et réseaux ;
- encourager la coopération, la recherche et l'activité par des analyses de tendances ;

---

[4] Déclaration mondiale sur l'éducation pour tous et le cadre d'action pour satisfaire aux besoins d'apprentissage de base, adoptée par le Congrès Mondial sur l'Education pour Tous, Jomtien, Taïlande, 5-9 mars 1990. New York: CMEPT avril 1990.

[5] *dito.*

[6] *dito.*

- propager l'information par la publication par exemple de bibliographies, d'études, de répertoires ou par la contribution à des bulletins d'information ;

- contribuer à éviter les actions parallèles ;

- répondre à des demandes d'information.

Le graphique ci-joint (p. 23) montre divers groupes membres du réseau de l'IUE tels que mass-média, organisations bénévoles, groupes d'apprentissage, alphabétiseurs, auteurs, autres réseaux d'alphabétisation, et donne un aperçu de quelques fonctions du réseau, de l'étendue de la coopération dans la recherche et des activités d'échange d'informations. L'un des instruments de cet échange non mentionné explicitement dans ce graphique est le bulletin *"Notes d'information sur l'éducation des adultes"* publié par l'IUE en association avec le siège de l'UNESCO et distribué gratuitement à tous les membres. Ceux-ci reçoivent également des publications spécialement rédigées pour le réseau, telles qu'analyses de tendances ou bibliographies.

La banque d'informations du réseau comporte les postes suivants:

- une collection spécialisée en alphabétisation de livres, documents, articles, rapports de conférences, bulletins et littérature non publiée provenant du monde entier ;
- une collection unique de plus de 7500 exemplaires de matériel pédagogique pour l'alphabétisation des adultes et des enfants hors-école, de 120 pays et en 164 langues, comprenant affiches, journaux populaires, jeux, cassettes vidéo, films, matériel complémentaire de lecture, méthodes d'évaluation et manuels pour enseignants ;

- une base de données informatique présentant la description des membres;

- les champs de spécialisation des membres du réseau.

L'un des instruments de la collecte des données est le questionnaire ci-joint (p. 24), rassemblant des informations personnelles (plus individuelles qu'institutionnelles), la nature de l'activité, le champ de spécialisation, les projets en cours, les publications, etc. Ce questionnaire de base évolue pour tenir compte des changements dans le domaine de l'alphabétisation. Quelques postes ont été ajoutés après l'analyse de la première série de réponses à l'item "autres" (numéros 5.05 et 6.17 du premier questionnaire). Les modifications introduites sont imprimées en italique (p. 25).

Jusqu'à maintenant, plus de 1500 institutions, particuliers et autres réseaux ont été invités à intégrer le réseau, ainsi que, pour des raisons de décentralisation, de 3 à 10 membres coordinateurs par pays, choisis selon l'étendue de leurs activités et la nature de leur spécialisation. Actuellement, le réseau compte 1348 membres de 141 pays participant activement à l'échange d'informations.

Parmi eux, 807 travaillent en alphabétisation dans les pays industrialisés. La grande majorité vit dans les pays industrialisés, mais quelques-uns vivent dans des pays en développement. Les pays industrialisés définis dans ce répertoire sont les suivants : Europe (y compris Chypre et Turquie), Australie, Canada, Israël, Japon, République de Corée, Nouvelle-Zélande, Singapour, Afrique du Sud et Etats-Unis (cf. graphique p. 26).

La distribution géographique de ces 807 membres de 50 pays est très inégale. Près de 55 % viennent de quatre pays -Etats-Unis, Canada, Allemagne, Royaume-Uni-, et 37 % des Etats-Unis et du Canada. Ceci reflète certainement en partie les différents degrés de sensibilisation et de prise de conscience en égard à l'alphabétisation, qui ne sont apparues que récemment en Europe de l'Est et en Scandinavie (cf. graphique p. 27).

Cette collecte de données progresse constamment, le nombre des membres augmente, certains quittent le travail d'alphabétisation et d'autres prennent la relève, l'éventail géographique et celui des champs d'action s'élargissent ; les titres suivants ont été publiés et distribués aux membres afin de renforcer leurs contacts :

Functional Illiteracy in Industrialized Countries : An Analytical Bibliography. 1987. Hambourg : IUE.

Une bibliographie sélective sur l'alphabétisation dans les pays industrialisés. 1990. *Dossiers IUE.* No 3.

Researching literacy in industrialized countries: trends and prospects. (résumé en français) 1990. *Dossiers IUE.* No 2.

Alphabétisation dans les pays en développement : Une bibliographie analytique. 1990. (Bulletin 254-257 du Bureau International de l'Education, Genève).

Alpha 90. 1990. Hambourg : IUE/Québec : Ministère de l'Education.

Alpha 92. 1992. Hambourg : IUE/Québec : Ministère de l'Education. Version espagnole : Ministère de l'Education et des Sciences, Madrid.

Notes d'information sur l'éducation des adultes. UNESCO, Paris, trimestriel.

Mondes des mots. Affiches d'alphabétisation. Catalogue d'une exposition internationale. Co-publié par l'IUE et les éditions Ernst Klett Verlag für Wissen und Bildung. 1992.

Le travail quotidien du réseau à son point central à l'IUE est souvent assez mouvementé. Des demandes d'information arrivent chaque jour par courrier et par téléphone, et nombreuses sont celles qui exigent un investissement en temps et en recherche. Leur nature varie des statistiques aux références bibliographiques, de l'adresse pour une prise de contact à la recommandation d'un conférencier, de conseils pratiques pour un cours d'alphabétisation à la question spécialisée pour un travail de recherche. Les nouvelles publications, annonces de conférences et de projets et toute autre nouvelle venant du milieu de l'alphabétisation doivent être régulièrement identifiées, répertoriées et traitées. La banque de données informatique, contenant les informations individuelles sur les membres du réseau, doit aussi être mise à jour avec régularité et minutie, en raison de la grande mobilité et fluctuation parmi la communauté internationale des alphabétiseurs. L'IUE prépare également les publications destinées aux membres du réseau.

Les activités suivantes sont prévues à court terme ou ont déjà démarré :

- un rééquilibrage dans la représentation actuellement inégale des membres à l'intérieur et entre les pays ;

- une identification plus systématique et plus poussée des membres des pays en développement : voir le questionnaire page 28. Ce formulaire tient compte de l'expérience faite avec les pays industrialisés, mais respecte aussi les différences dans le travail d'alphabétisation et la recherche entre ces deux groupes de pays ;

- Le même travail d'identification est à effectuer pour les pays d'Europe de l'Est ;

- De nouveaux "sous-réseaux" seront créés et ceux existant seront développés, comme par exemple

  * l'alphabétisation en Afrique
  * l'alphabétisation et la femme
  * l'apprentissage des mathématiques.

La publication du Répertoire et sa distribution aux membres permettra éventuellement de décentraliser certaines activités du réseau. Tous les membres ont maintenant la possibilité d'entrer en contact sans passer par le bureau central de l'IUE. Sur la base des informations qu'ils ont fournies, le Répertoire permet de savoir qui travaille où, qui est spécialisé en quel domaine, qui se concentre sur quel pays ou quelle région. Il peut ainsi révéler les lacunes ou les poussées dans la recherche et le travail d'alphabétisation. L'indication parallèle des domaines de spécialisation et de la répartition géographique invite à une interprétation à la fois quantitative et qualitative.

Nous tenons à remercier plusieurs collègues qui nous ont aidé à établir ce répertoire : Beate Amrhein et Andreas Meyer pour le traitement des données, Luís Prieto pour l'adaptation du logiciel CDS/ISIS aux besoins du réseau, Imke Behr pour la lecture-correction, Liane Mayer pour la mise en page, Dominique Bohère pour les traductions en français et Alejandra Cádiz pour les traductions en espagnol. Surtout, cette publication n'aurait pu avoir lieu sans les informations fournies par les membres du réseau.

Une communauté tire sa force, sa créativité et son dynamisme de l'ensemble de ses membres, et l'avenir de notre réseau dépendra de votre contribution régulière, que ce soit par l'annonce de changements d'adresses ou par l'envoi de publications, de matériel d'apprentissage ou de toute autre nouvelle intéressante venant du monde de l'alphabétisation, que vous souhaitez partager avec vos collègues.

La Red de Alfabetización de la UNESCO/IUE: Una Red de Redes

Las redes de información para el intercambio de experiencias y conocimiento sobre alfabetización están creciendo de forma acelerada. Algunas personas prefieren redes informales, basadas en contactos personales con colegas, otras prefieren redes más institucionalizadas. Discusiones acerca de qué rasgos hacen a las redes más interactivas, más eficientes y más capaces de acortar la distancia entre la teoría y la práctica, la investigación y la toma de decisiones, han generado una cierta controversia entre las distintas perspectivas y en ocasiones se han puesto de manifiesto ciertas rivalidades.

Parece haber un cierto acuerdo en que las redes se cristalizan y emergen fácilmente alrededor de una preocupación compartida, ya sea ésta la profesión practicada, un área de contenido en particular, un acercamiento ideológico, una región geográfica o quizás alrededor de un idioma en común.

Sin embargo, ¿qué es lo que previene que una red dinámica y activa se sumerja bajo archivos, terminando como listas de direcciones de recipientes pasivos de alguna información insignificante, siendo diseminados con irregularidad creciente? No existe una respuesta simple, directa y válida.

Un grupo de trabajo sobre redes de información, establecido durante la Conferencia Internacional sobre Alfabetización Mundial en el año 2000 organizado en octubre de 1990 por el Centro de Investigación de Alfabetización de la Universidad de Pensilvania, como continuación de la Conferencia Mundial de Educación para Todos (WCEFA), en Jomtien, consideraba crucial desarrollar redes con las siguientes características : con capacidad para el diálogo, con altos niveles de funcionalidad para ofrecer conocimientos de alta calidad; con capacidad para acercar el conocimiento teórico al práctico y viceversa; con un tamaño máximo de 200 miembros; con capacidad para facilitar algunas comunicaciones cara a cara y poseer infraestructura y fondos para la comunicación a larga distancia.

La Declaración Mundial de Educación para Todos y Marco de Acción para satisfacer las Necesidades Básicas de Aprendizaje, adoptada por la Conferencia Mundial en Jomtien en marzo de 1990, enfatiza la necesidad de intercambio de información, experiencia y conocimiento para llevar a cabo actividades conjuntas. Sin embargo, no realza principios específicos de las redes. Recomienda, no obstante, la utilización de los mecanismos existentes para compartir la información tales como,

"...numerosas conferencias y encuentros organzados por organismos no gubernamentales..."[7]

Las áreas a través de las cuales puede favorecerse la comunicación regional están explícitamente mencionadas en dicha Declaración y son las siguientes:

> *"...(i) capacitación de personal clave, como planificadores, administradores, profesores de institutos de formación, investigadores, etc; (ii) esfuerzos para mejorar la recolección y el análisis de la información; (iii) investigación; (iv) producción de materiales educativos (v) utilización de los medios de comunicación en la satisfacción de las necesidades básicas de aprendrizaje; y (vi) manejo y uso de los servicios de educación a distancia.*[8]

En este contexto, el Marco de Trabajo para la Acción piensa que:

> *"... existen muchos mecanismos que podrían utilizarse para fomentar tales activadades, incluido...el Instituto de Educación de la UNESCO".*[9]

En 1988 el Instituto de la UNESCO para la Educación (IUE) en Hamburgo, con el apoyo de las oficinas centrales de la UNESCO en Paris, pone en marcha una red de intercambio para los países industrializados, ampliándola en 1991 a los países en vías de desarrollo. Dicha red no pretende ser el único Centro de Investigación o de Redes en la Alfabetización Adulta y Educación Básica, sino que, aprovechando la experiencia y contactos obtenidos por el IUE en varias décadas de actividad internacional, trata de canalizar activamente el flujo de información entre los individuos y las diferentes organizaciones -gubernamentales, no gubernamentales e intergubernamentales. Los miembros de la Red van desde los profesionales que trabajan en el campo de Educación de Adultos a los investigadores y organizaciones y se preocupa de cualquier aspecto de la alfabetización adulta.

Mientras la Red de Alfabetización para Países en Vías de Desarrollo está aún siendo sistematizada, la de los Países Industrializados, siguiendo una recomendación del seminario sobre Alfabetización Pan-Europeo de la UNESCO en 1986, comenzó sus operaciones con los siguientes objetivos:

- desarrollar las relaciones entre los organizadores, investigadores, practicantes, redes;
- estimular la cooperación, investigación y acción a través de un análisis de las distintas tendencias;

---

[7] Declaración mundial sobre educación para todos y Marco de acción para satisfacer las necesidades básicas de aprendizaje. Conferencia Mundial sobre Educación para Todos, Jomtien, Tailandia, 1990. New York, Comisión Interagencial, 1990. pág.12

[8] ibid. pág.12/13.

[9] ibid. pág. 13.

- difundir información a través de publicaciones de, por ejemplo, bibliografías, estudios, directorios, o a través de circulares;
- ayudar a impedir la duplicación del trabajo;
- proveer información al momento de requerirla.

El siguiente gráfico (pág. 35) muestra varios grupos de miembros de la Red del IUE, tales como medios de comunicación, organizaciones voluntarias, grupos de aprendizaje, trabajadores de alfabetización, autores, otras redes de alfabetización y enumera algunas de las funciones de la red, el filamento de investigación cooperativa y las actividades de intercambio de información.

Uno de los instrumentos para el intercambio de información no mencionado explícitamente en el gráfico es la circular:

Educación de adultos. Notas de información

publicadas por el IUE en conjunto con las oficinas centrales de la UNESCO y distribuida gratuítamente a todos los miembros de la red. Más aún, los miembors de la red reciben también publicaciones especialmente preparadas por la red, tales como análisis o bibliografías.

El conocimiento almacenado en la Red tiene los siguientes componentes:

- una colección especial de libros, documentos, artículos, informes sobre conferencias, circulares, literatura gris sobre alfabetización de todo el mundo;
- una colección única de más de 7500 ejemplos de materiales de aprendizaje usados en el trabajo de alfabetización con adultos y niños fuera de la escuela de 120 países en 164 idiomas. Los materiales incluyen posters, periódicos rurales, juegos, cassettes de video, películas, material suplementario de lectura, instrumentos de evaluación y manuales para los maestros;
- una base de datos electrónica con las características de los miembros de la red;
- la experiencia de los miembros de la red.

Un instrumento para la recopilación de datos es el cuestionario siguiente (pag. 36), en el cual se solicitan datos personales (más bien individuales que institucionales), la naturaleza del trabajo, campo de especialización, proyectos actuales, publicaciones, etc.

Este cuestionario original se mantiene en un cambio constante debido al dinámico flujo del campo de la alfabetización. Después de analizar la primera ronda de respuestas al ítem "otros" (preguntas 5.05 y 6.17 en el cuestionario original), se han añadido más preguntas. Los cambios introducidos están en letra cursiva en pág. 37.

Más de 1500 instituciones/individuos/redes han sido, hasta el momento, contactados para unirse a la Red. Por razones de descentralización, se cuenta entre 3 y 10 miembros

47

de referencia, especialistas en el tema, por país. El número de expertos por país depende de la cantidad de actividades desarrolladas y la naturaleza de su experiencia.

Hasta la fecha la Red cuenta con 1.348 miembros de 141 países participando activamente en el intercambio de información. De éstos, 807 miembros trabajan en alfabetización en países industrializados.

La mayoría de los miembros incluidos en este Directorio de la Red de Intercambio para la Alfabetización en Países Industrializados de la UNESCO/IUE viven en países industrializados. También hay algunos que viven en países en vías de desarrollo y trabajan en la alfabetización de los países industrializados. Los países industrializados definidos por este Directorio son: Europa (incluyendo a Chipre y Turquía), Australia, Canadá, Israel, Japón, República de Corea, Nueva Zelandia, Singapur, Sudáfrica, y los Estados Unidos de América (cuadro pag. 38).

La distribución geográfica de los 807 miembros de la Red de Intercambio para la Alfabetización en Países Industrializados de 50 países es muy desigual. Casi el 55 % de los miembros provienen de cuatro países, los Estados Unidos, Canadá, Alemania, el Reino Unido. 37% provienen de dos países, en concreto los EUA y Canadá. Esto refleja, hasta cierto punto, los diferentes niveles de aceptación o conciencia en el campo de alfabetización. Solo recientemente, la toma de conciencia de este problema ha aumentado en países de Europa Oriental y Escandinavia (cuadro pag. 39).

La recopilación de datos sigue avanzando y el número de miembros crece, algunos miembros abandonan el trabajo de alfabetización mientras otros se incorporan, tanto el volumen como el espacio geográfico se extiende, y las siguientes publicaciones han sido producidas y/o distribuidas a miembros de la red para estímulo y discusión entre ellos:

A selective bibliography on literacy in industrialized countries. 1990. *UIE Reports*. No. 3.

Researching literacy in industrialized countries: trends and prospects. 1990. *UIE Reports*. No. 2.

Literacy in developing countries: An analytical bibliography. 1990. (Bulletin 254-257 of the International Bureau of Education, Geneva).

Alpha 90. 1990. Hamburg: UIE/Québec: Ministry of Education.

Alpha 92. 1992. Hamburg: UIE/Québec: Ministry of Education/Madrid: Ministerio de Educación y Ciencia.

Educación de adultos: Notas de información. UNESCO, París, trimestrial.

Mundos de las palabras. Posters de alfabetización. Catálogo de una exposición internacional. Co-publicada por UIE y Ernst Klett Verlag für Wissen und Bildung. 1992.

El trabajo diario en la oficina central de la Red en el Instituto de la UNESCO para la Educación es a menudo estresante. Cada dia llegan solicitudes de información tanto telefónicas como por escrito. Muchas de ellas requieren respuestas intensivas que demandan mucho tiempo. La información solicitada va desde datos estadísticos via referencias bibliográficas, personas de contacto, recomendaciones de personas para conferencias, datos prácticos para clases de alfabetización hasta publicaciones de investigación especializada. Nuevas publicaciones, avisos de conferencias y proyectos junto a cualquier otra noticia del escenario de la alfabetización tienen que ser identificados, observados y procesados de manera periódica. La base de datos electrónica, que contiene la información relacionada con los miembros individuales de la red tiene que ser actualizada minuciosa y regularmente debido a la alta movilidad y fluctuación en la comunidad internacional de trabajadores de la alfabetización. Más aún, se deben preparar publicaciones para la distribución entre los miembros de la red.

Para el futuro próximo han sido proyectadas y planificadas las siguientes actividades:

- La desigual representación de los miembros de la red en y entre países tiene que ser equilibrada.

- La identificación de los miembros de la red de los países en vías de desarrollo deberá ser sistematizada e intensificada (cuestionario para miembros de la red para países en vías de desarrollo, ver pag. 40.) Este instrumento toma en consideración las experiencias hechas con el cuestionario para países industrializados, refleja, sin embargo, asimismo algunas diferencias en trabajos de alfabetización e investigación entre los países industrializados y aquellos en vías de desarrollo).

- También se deberá sistematizar e intensificar la identificación de los miembros de la red de Europa Oriental.

- Se crearán nuevas "subredes", y las ya existentes, tales como aquellas sobre

  * Alfabetización en Africa
  * Mujeres y Alfabetización
  * Alfabetización numérica o matemática

  se intesificarán.

La publicación de este Directorio así como su distribución a los miembros de la Red puede ayudar a descentralizar algunas de las actividades de la Red.

Todos los miembros de la red están ahora capacitados para tomar contacto entre sí sin tener que pasar por la oficina central del Instituto para la Educación de la UNESCO. En la base de la información entregada por los miembros de la red, el Directorio ayuda a encontrar quién trabaja dónde, quién se ha especilizado en qué campo, quién se centra en que país o región. Más aún, el Directorio puede indicar espacios vacíos así como también revelar cimas en la práctica de alfabetización e investigación. Los índices en campos de especialización y focos geográficos invitan a interpretaciones cuantitativas y cualitativas.

Muchos colegas han colaborado en la preparación de este Directorio. Gracias a todos ellos: a Beate Amrhein y Andreas Meyer por el procesamiento de datos, a Luis Prieto por ajustar el CDS/ISIS software a las necesidades de la Red, a Imke Behr por lectura de prueba, a Liane Meyer por ayudar con el diseño tipográfico, a Dominique Bohère por las traducciones al francés y a Alejandra Cádiz por las traducciones al español.

Sin la información aportada por los miembros de la red la publicación de este Directorio no habría sido posible.

Tomando en cuenta que una red es tan fuerte, innovativa y activa como sus miembros, el futuro de nuesta Red depende de su participación en el aporte regular de información, ya sea cambios de direcciones, publicaciones, materiales de aprendizaje, o cualquier otra noticia de interés del escenario de la alfabetización que usted desee compartir con otros.

Autoridades locales de la educación
Centros de Investigación
Autores
Periodistas

Red de alfabetización
Objetivos:

- desarrollar las relaciones entre los organizadores, investigadores, practicantes, redes
- estimular la cooperación, investigación y acción a través de un análisis de las distintas tendencias
- difundir información a través de publicaciones de, por ejemplo, bibliografías, estudios, directorios, o a través de circulares
- ayudar a impedir la duplicación de trabajo
- proveer información al momento de requerirla

Das UNESCO/UIP Alphabetisierungsnetzwerk: ein Netzwerk von Netzwerken

Gelegenheiten zum Gedanken- und Erfahrungsaustausch von Praktikern, Wissenschaftlern und Politikern können einen Beitrag zur Erwachsenenalphabetisierung leisten. Aus diesem Grund entstehen in vielen Ländern mehr und mehr Informationsnetzwerke. Während einige Leute sich stärker auf informelle Netzwerke verlassen, die sich durch Kontakte zu Arbeitskollegen ergeben, bevorzugen andere institutionalisiertere Netzwerke. Diskussionen darüber, welche Eigenschaften ein Netzwerk kommunikativ und effizient machen und am geeignetsten sind, die Kluft zwischen Theorie und Praxis, zwischen Forschung und politischer Entscheidungsebene überbrücken zu helfen, haben zu Kontroversen, Wettkampf und manchmal gar zu Rivalität geführt.

Weitgehend einig scheint man sich in der Ansicht zu sein, daß Netzwerke sich verhältnismäßig spontan und problemlos um gemeinsame Interessen kristallisieren, um ein gemeinsames Berufsfeld, ein inhaltliches Spezialgebiet, einen ideologischen Ansatz, eine geographische Region oder auch um eine gemeinsame Sprache.

Was aber bewahrt aktive, dynamische Netzwerke davor, zwischen Aktendeckeln zu verstauben und schließlich als Adressenlisten passiver Empfänger von immer unregelmäßiger versandten irrelevanten Informationen zu enden? Ein allgemeingültiges Rezept gibt es sicher nicht.

Während der "Internationalen Konferenz zur Alphabetisierung im Jahr 2000", die 1990 vom Zentrum für Alphabetisierungsforschung der Universität von Pennsylvania im Anschluß an die Weltkonferenz zur Bildung für alle (Jomtien) durchgeführt wurde, hat zum Beispiel eine Netzwerk-Arbeitsgruppe die folgenden Kriterien für eine kontinuierliche Dialogfähigkeit von Netzwerken für notwendig gehalten: hohes Engagement, qualifiziertes Wissen anzubieten; Transfer von theoretischem Know-How zur Praxis und von praktischen Erfahrungen zur Forschung; maximal 200 Netzwerkmitglieder; etwas persönliche Kommunikation; Infrastruktur und finanzielle Mittel für Kommunikation über große Entfernungen hinweg.

Der von der Weltkonferenz zur Bildung für alle in Jomtien im März 1990 beschlossene "Aktionsrahmen zur Befriedigung der grundlegenden Lernbedürfnisse" betont zwar die Notwendigkeit des Austauschs von Informationen, Erfahrungen und Fachwissen und des Durchführens gemeinsamer Aktivitäten, weist jedoch nicht auf spezifische Netzwerkprinzipien hin, sondern betont vielmehr die Nutzung existierender Mechanismen für den Informationsaustausch wie beispielsweise

> *"... zahlreiche von nichtstaatlichen Gremien einberufene Konferenzen und Treffen ..."* [10]

Folgende sechs Gebiete, auf denen eine Form regionaler Zusammenarbeit besonders sinnvoll erscheint, werden ausdrücklich erwähnt:

> *"... (a) Ausbildung von Entscheidungsträgern wie beispielsweise Planer, Manager, Lehrerausbilder, Wissenschaftler usw.; (b) Verbesserung der Zusammenstellung und Analyse von Informationen; (c) Forschung; (d) Produktion von Lehr-Lern-Materialien; (e) Nutzung der Kommunikationsmedien zur Befriedigung der grundlegenden Lernbedürfnisse; und (f) Betreibung und Nutzung von Fernstudieneinrichtungen."* [11]

Der Aktionsrahmen bezieht sich in diesem Zusammenhang auf

> *"... verschiedene bereits existierende Mechanismen und Einrichtungen, die für die Förderung solcher Aktivitäten genutzt werden könnten, insbesondere ... sowie ... das UNESCO-Institut für Pädagogik ..."* [12]

Das am UNESCO-Institut für Pädagogik (UIP) mit Unterstützung der UNESCO 1988 eingerichtete Alphabetisierungsnetzwerk zu Industrieländern, das seit 1991 auch auf Entwicklungsländer ausgedehnt wurde, hat weder den Anspruch noch die Zielsetzung, das "one and only" Netzwerk/Resource Centre auf dem Gebiet der Alphabetisierung und Grunderziehung Erwachsener zu sein. Es versucht vielmehr - die Erfahrungen und Kontakte aus jahrzehntelanger internationaler Arbeit des UNESCO-Instituts nutzend - den internationalen Informationsfluß zwischen Personen und staatlichen, nicht-staatlichen oder zwischenstaatlichen Organisationen systematisch zu kanalisieren, die an der Basis, in der Forschung oder als politische Entscheidungsträger zu Aspekten der Alphabetisierung Erwachsener arbeiten.

Während das Alphabetisierungsnetzwerk zu Entwicklungsländern sich noch in der Aufbauphase befindet, hat das Netzwerk zu Industrieländern im Anschluß an eine Empfehlung des pan-europäischen Alphabetisierungs-Workshops der UNESCO von 1986 mit folgenden Zielsetzungen die Arbeit aufgenommen:

- Herstellung von Kontakten zwischen politischen Entscheidungsträgern, For-

schern, Praktikern, Netzwerken
- Förderung von Kooperation, Forschung und Entwicklung, durch die Erarbeitung von Trendanalysen
- Verbreitung von Informationen durch die Publikation von beispielsweise Bibliographien, Studien, Verzeichnissen, oder Zulieferung von Informationen an Newsletter
- Vermeidung von Doppelarbeit
- Beantwortung von Anfragen.

Das folgende Schaubild (S. 47) zeigt unterschiedliche Mitgliedsgruppen des Netzwerks, wie beispielsweise die Massenmedien, Lerngruppen, Kursleiter, Initiativen, Autoren, andere Netzwerke, sowie einige Funktionen des Netzwerks, beispielsweise die kooperative Forschungsarbeit oder die Aktivitäten zum Zweck des Informationsaustauschs.

Ein Forum für den Informationsaustausch ist der vom UIP in Verbindung mit der UNESCO publizierte Newsletter

"Adult Education Information Notes"

der regelmäßig kostenlos an alle Netzwerkmitglieder versandt wird. Die Netzwerkmitglieder erhalten außerdem auch speziell für das Netzwerk erarbeitete Veröffentlichungen, z.B. Trendanalysen oder Bibliographien.

Der Informationspool des Netzwerks besteht aus folgenden Komponenten:

- Einer Spezialsammlung von Büchern, Dokumenten, Zeitschriftenartikeln, Konferenzberichten, Newsletters, grauer Literatur zur Alphabetisierung aus aller Welt;
- einer einzigartigen Beispielsammlung von mehr als 7500 in der Alphabetisierungsarbeit mit Erwachsenen und nicht eingeschulten Kindern benutzten Lernmaterialien aus 120 Ländern in mehr als 164 Sprachen. Zu diesen Materialien gehören u.a. Poster, ländliche Zeitungen, Spiele, Videokassetten, Filme, Evaluations-Instrumentarien und Handbücher für das Lehrpersonal;
- einer elektronischen Datenbank, die die Profile der Netzwerkmitglieder enthält;
- der Expertise der Netzwerkmitglieder.

Ein Instrument für die Datenerhebung ist der folgende Fragebogen (S. 48), mit dem persönliche Daten (wenig institutionen-orientiert), die Art der ausgeübten Arbeit, das Spezialgebiet, laufende Projekte, Publikationen usw. erfaßt werden.

Dieser ursprünglich erarbeitete Fragebogen ändert sich mit der Dynamik der Alphabetisierungsarbeit. Einige der nach Analyse der auf die offenen Fragen ("others": Frage 5.05 und 6.17) erhaltenen Antworten vorgenommenen Veränderungen der ersten Fassung des Fragebogens sind auf Seite 49 in Kursivschrift hervorgehoben.

Mehr als 1500 Personen/Institutionen/Netzwerke sind bisher aufgefordert worden, sich dem Netzwerk anzuschließen. Drei bis zehn Personen/Institutionen pro Land - abhängig von der Menge der Aktivitäten eines Landes oder der Erfahrung einzelner Personen - haben sich bereit erklärt, zu Dezentralisierungszwecken als "Resource Members" zu dienen.

Bisher hat das Netzwerk insgesamt 1348 sich aktiv am Informationsaustausch beteiligende Mitglieder aus 141 Ländern. Von diesen arbeiten 807 zur Alphabetisierung in Industrieländern.

Die meisten der im vorliegenden Verzeichnis des UNESCO/UIP Alphabetisierungsnetzwerks zu Industrieländern genannten Mitglieder leben in Industrieländern, aber es gibt auch einige wenige, die in Entwicklungsländern leben und zu Industrieländern arbeiten. Als Industrieländer werden in diesem Verzeichnis folgende Länder bezeichnet: Europa (einschließlich Türkei und Zypern), Australien, Kanada, Israël, Japan, Korea (Republik, d.h. Südkorea), Neuseeland, Singapur, Südafrika und die USA (Karte S. 50).

Die geographische Verteilung der 807 Mitglieder des UNESCO/UIP Alphabetisierungsnetzwerkes zu Industrieländern aus 50 Ländern ist sehr unausgewogen.
55 % der Mitglieder leben in vier Ländern, den USA, Kanada, der Bundesrepublik Deutschland und Großbritannien, 37 % leben in nur zwei Ländern, nämlich in den USA und Kanada. Dies spiegelt sicherlich zu einem gewissen Grad die Akzeptanz des Phänomens des Analphabetismus wider und ein Problembewußtsein, das sich erst seit kurzem in Osteuropa und in Skandinavien verstärkt (vgl. S. 51).

Während die Datenerhebung kontinuierlich fortgesetzt wird, die Zahl der Netzwerkmitglieder steigt, einige Mitglieder aus der Alphabetisierungsarbeit aussteigen, andere neu hinzukommen, und sowohl der inhaltliche als auch der geographische Rahmen sich erweitern und ändern, sind bisher folgende Publikationen zur Anregung von Diskussionen unter den Netzwerkmitgliedern veröffentlicht und/oder verteilt worden:

- *Functional illiteracy in industrialised countries: An analytical bibliography.* 1987. Hamburg: UIP.
- A selective bibliography on literacy in industrialised countries. 1990. *UIE Reports* No. 3.
- Researching literacy in industrialised countries: Trends and prospects. 1990. *UIE Reports* No. 2.
- *Literacy in developing countries: An analytical bibliography.* 1990. (Bulletin 254-257 of the International Bureau of Education, Geneva).
- *Alpha 90* . 1990. Hamburg: UIP/Québec: Erziehungsministerium.
- *Alpha 92* . 1992. Hamburg: UIP/Québec: Erziehungsministerium. Spanische Fassung: Madrid: Ministerium für Erziehung und Wissenschaft.
- *Adult education information notes.* UNESCO, Paris, vierteljährlich.

- *Die Welten der Wörter*. Alphabetisierungsplakate. Viersprachiger Katalog einer internationalen Ausstellung. Gemeinsam veröffentlicht vom UIP und dem Ernst Klett Verlag für Wissen und Bildung. 1992.

Die alltägliche Arbeit in der Netzwerkzentrale ist oft recht hektisch. Täglich gehen schriftliche und telefonische Anfragen ein, deren Bearbeitung oft sehr arbeitsintensiv ist. Von statistischen Angaben über Literaturhinweise, Kontaktpersonen, Empfehlungen von Referenten für Tagungen, praktischen Tips für den Alphabetisierungsunterricht bis hin zu Spezialfragen zu Forschungsprojekten reichen die gewünschten Auskünfte. Regelmäßig müssen Neuerscheinungen, Hinweise auf Konferenzen, Projekte und andere Neuigkeiten aus der Alphabetisierungsszene gesichtet und aufbereitet werden. Die elektronische Datenbank, die die Angaben zu den einzelnen Netzwerkmitgliedern enthält, muß bei der großen Mobilität und Fluktuation unter den in der Alphabetisierung Tätigen sorgfältig auf den neuesten Stand gebracht werden. Darüber hinaus müssen Publikationen zur Verteilung an die Netzwerkmitglieder erarbeitet werden.

Für die nähere Zukunft sind folgende Arbeiten geplant bzw. in Angriff genommen worden:

- Die bisher unausgewogene Repräsentation der Netzwerkmitglieder innerhalb der unterschiedlichen Länder und von Land zu Land soll ausgeglichener werden.

- Die Aufnahme von Netzwerkmitgliedern aus Entwicklungsländern soll systematisiert und intensiviert werden (Fragebogen für Netzwerkmitglieder aus Entwicklungsländern s. S. 52. Dieser Fragebogen berücksichtigt die mit Industrieländern gewonnenen Erfahrungen, spiegelt aber auch einige Unterschiede zwischen der Alphabetisierungsarbeit und -forschung in Industrie- und Entwicklungsländern wider).

- Die Aufnahme von Netzwerkmitgliedern aus Osteuropa soll ebenfalls systematisiert und intensiviert werden.

- Neue "Unternetzwerke" sollen geschaffen, bereits bestehende intensiviert werden, wie beispielsweise diejenigen zu

  * Alphabetisierung in Afrika

  * Frauen und Alphabetisierung

  * "Numeracy".

Durch die Veröffentlichung dieses Verzeichnisses und seine Verteilung an alle Netzwerkmitglieder wird sich die Arbeit etwas dezentralisieren lassen.

Alle Netzwerkmitglieder haben jetzt die Möglichkeit, direkt miteinander in Verbindung zu treten, ohne durch die Zentrale im UNESCO-Institut für Pädagogik gehen zu müssen. Auf der Grundlage der von den Netzwerkmitgliedern erteilten Informationen gibt das Verzeichnis zu folgenden Fragen Auskunft: Wer arbeitet wo? Wer hat sich auf welches Gebiet spezialisiert? Wer arbeitet zu welchem Land oder welcher Region? Darüber hinaus kann das Verzeichnis auf Lücken und Schwerpunkte in der Alphabetisierungspraxis und -forschung hinweisen. Die Indices zu den Spezialgebieten und zu den geographischen Arbeitsschwerpunkten laden zu quantitativer und qualitativer Interpretation ein.

Viele Kollegen haben bei der Erstellung dieses Verzeichnisses geholfen. Ihnen allen herzlichen Dank: Beate Amrhein und Andreas Meyer für die Datenverarbeitung, Luís Prieto für das Anpassen der CDS/ISIS Software an die Belange des Netzwerks, Imke Behr für das Korrekturlesen, Liane Mayer für ihre Hilfe beim Layout, Dominique Bohère für Übersetzungen ins Französische und Alejandra Cádiz für Übersetzungen ins Spanische.

Ohne die von den Netzwerkmitgliedern erteilten Auskünfte wäre die Veröffentlichung dieses Verzeichnisses nicht möglich gewesen.

Ein Netzwerk ist so stark, innovativ und aktiv wie die Gesamtheit seiner Mitglieder. Die Zukunft unseres Netzwerks hängt daher von Ihrer/Eurer regelmäßigen Zulieferung von Informationen ab, seien es Adressenänderungen, Veröffentlichungen, Lernmaterialien oder sonstige interessante Neuigkeiten aus der Alphabetisierungsszene, die Sie/Ihr anderen zugänglich machen möchten/möchtet.

REPRODUCTION RELEASE

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: UNESCO/UIE Literacy Exchange Network on Industrialized Countries. Directory of Members 1994	
Author(s): URSULA GIERE	
Corporate Source: UNESCO / UNESCO Institute for Education	Publication Date: 1994

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic/optical media, and sold through the ERIC Document Reproduction Service (EDRS) or other ERIC vendors. Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce the identified document, please CHECK ONE of the following options and sign the release below.

☑ Sample sticker to be affixed to document

Check here
Permitting microfiche (4" x 6" film), paper copy, electronic, and optical media reproduction

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but neither box is checked, documents will be processed at Level 1.

"I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce this document as indicated above. Reproduction from the ERIC microfiche or electronic/optical media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for nonprofit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries."

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of this document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents which cannot be made available through EDRS.)
